

## ABSTRACT OF THE DISCLOSURE

A method for causing the elimination of an active principle, R, from cells of a mammal which contain the active principle, R, which comprises administering to said mammal, a compound identical in nature to said active principle in a homeopathic product of the formula  $RxCH$ , in which R is the active principle and in which  $xCH$  is a homeopathic dilution of said active ingredient R to eliminate R from the cells to restore normal function to the perturbed pericellular transport systems.

1. The method of claim 1, wherein the active principle R is a hormone.
